The undersigned customer ("Customer") agrees that all services provided under this Price Confirmation are subject to the below referenced US Ecology affiliated facility's ("USE Facility") standard terms and conditions for services located at Contractor's website address indicated below ("Terms and Conditions"), which will apply. However, if Customer and the USE Facility, or any affiliate of USE Facility, have a current alternative agreement in place ("Contract"), as of the date of this Price Confirmation applicable to such services, Customer and the USE Facility agree that said Contract shall govern and apply. In the event the Contract is between Customer and an affiliate of USE Facility, Customer and USE Facility agree to be bound to the Contract as if they were the original and sole parties thereto. Customer warrants the accuracy of the waste description in the subject waste profile information provided and understands that USE Facility has the appropriate permit(s) issued by federal and state regulatory agencies to properly transport, treat, and/or dispose of the waste material(s) listed below. Customer will ensure the generator identified below is also responsible for the accuracy and completeness of the waste profile information provided, and any other information provided to the USE Facility during its approval process. The generator and Customer must notify the USE Facility immediately upon knowledge of any changes to such information. The prices listed below expire on the date(s) noted. Please issue any purchase/work orders to the USE Facility. To coordinate delivery of the subject waste stream(s), please contact customer service at (800) 592-5489. Customer may use its standard forms (i.e., purchase/work orders) for convenience purposes, but Customer agrees that no terms and conditions on any Customer provided document will apply to the services provided by USE Facility, but will only apply to the extent necessary to describe the waste material and services.

I, _____, hereby certify that I have reviewed the information

Please note the following:

- Additional fees may apply at the time of delivery for off-loading assistance, due to non-conforming waste, or other issues.
- The specified pricing is contingent upon the waste conforming to the approved waste profile.
- All containers must meet US DOT requirements.
- Quoted bulk disposal charges for solid materials will be billed by the cubic yard if the truckload density is less than 2,000 pounds per cubic yard. If the truckload density is greater than 2,000 pounds per cubic yard then bulk charges will be billed by the ton regardless of the approved container. USE Facility personnel will monitor all shipments.
- If transportation is provided, an additional fuel surcharge will apply based on the weekly US DOE fuel price index.
- Customer acknowledges that USE Facility may, at its sole discretion, ship waste to one of its affiliated locations or one of its approved, third-party facilities for treatment, disposal and/or recycling, and that such alternative location may be located outside of the United States.
- Due to the US EPA's e-manifest regulations, a fee will be assessed to all customers for shipments utilizing a hazardous waste manifest.
- The Terms and Conditions are located at: https://www.usecology.com/Libraries/Facility_Documents/Services_Terms_and_Conditions.sflb.ashx
